

IBSA-GENÉVRIER Satellite Symposium

Disease and Structure Modification in Osteoarthritis: Current Status and New Evidence

Saturday, March 31, 2007, 12.15 –13.45
Europarque Congress Centre, Auditorium 2

LUNCH
SYMPOSIUM

ECCEO7

Porto, Portugal, March 28-31, 2007

Chairman: André Kahan (*France*)

- 12.15 Welcome and introduction
- 12.20 Pharmacokinetics of chondroitin sulfate
Nicola Volpi (Italy)
- 12.45 Oral chondroitin sulfate therapy in osteoarthritis of the knee:
algo-functional and structure modifying effects
Daniel Uebelhart (Switzerland)
- 13.10 STOPP (STudy on Osteoarthritis Progression Prevention):
Chondroitin sulfate reduces the progression of joint space
narrowing in knee OA
Jean-Yves Reginster (Belgium)
- 13.35 Discussion and conclusions
- 13.45 End of session
