Novel findings in human FSH research

Friday, September 14, 2007, 11.30-13.00

Aurelia Convention Centre & Expo, Sala Michelangelo

- 11.30 Welcome and introduction
- 11.35 Structure-function correlates of human FSH
I. Huhtaniemi (UK)
- 12.00 Unique quality features of IBSA's FSH manufacturing
and purification processes
P. Caccia (Switzerland)
- 12.25 Fostimon, a new generation human-derived FSH,
in a clinical setting: evidence for improved efficacy
and new opportunities of investigation
J.G. Grudzinskas (UK)
- 12.50 Discussion and conclusions
- 13.00 End of session

Institut Biochimique SA
